If you don't consider yourself creative or artistic, this is a great tool to help you get started.

Everyone has a creative muscle – sometimes it's just a matter of stretching and exercising that muscle.

This collection of patterns, borders, letters and other doodles are all designed to be super simple that can be easily incorporated into any doodle.

Having a collection of patterns at the ready will keep the creativity flowing. There's lots of space to add your own patterns.

If you want to get better at something, then you have to practice.

So get yourself a sketchbook and carry it with you EVERYWHERE! You can make a quick sketch on that cute pattern of chair at the restaurant or the pattern of someone's shirt.

You never know when you might be inspired and creativity
